OUR VALUES
 Our industry leading expertise, longevity, and commitment to doing what's right means peace of mind with Rayax.

Innovation: We continuously push the boundaries of solar technology, developing cutting-edge solutions that drive efficiency, scalability, and sustainability in energy production.

Transparency: We are committed to open and honest communication with all stakeholders, ensuring clarity in our processes, pricing, and environmental impact.

Inclusion: We provide tailored solar solutions for clients of all sizes, from small businesses to large industrial units, ensuring that clean energy is accessible and beneficial to everyone, regardless of scale.

Peak Shaving
 Slash peak-hour energy costs by reducing your load on the grid. Our smart solar systems balance demand, improving efficiency and cutting utility bills.

Demand Response
 Stay ahead with intelligent energy control. Adjust your power usage in real time based on demand, ensuring smarter consumption and optimized savings.

Safety & Reliability
 Powered by top-tier technology and certified safety standards, Rayax Energy systems offer trusted performance with long-term durability and minimal risks.

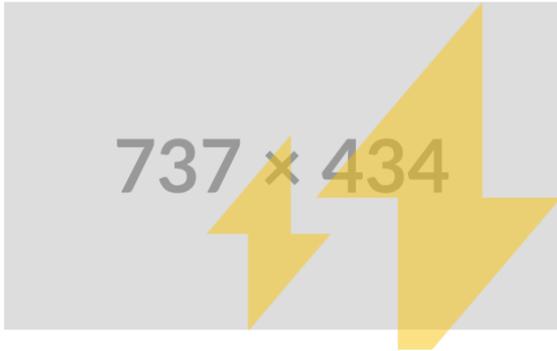

Easy Installation
 Quick, hassle-free setup by expert engineers. From design to commissioning, we manage every detail to deliver a smooth solar experience.

Low Maintenance
 Engineered for durability, our systems require minimal upkeep. Enjoy continuous, worry-free power backed by professional maintenance support.

Affordable Pricing
 Go solar without overpaying. Our cost-effective solutions, subsidy support, and easy EMI plans make solar accessible for every budget.

Rayax Energy On-Grid Solar Inverters

Rayax Energy's On-Grid Solar Inverters are designed to seamlessly integrate solar power systems with the electrical grid, enabling efficient conversion of DC solar energy into AC power for immediate consumption and grid export. Our single-phase inverter range from 3 KW to 5.5 KW features advanced MPPT technology, robust anti-islanding protection, and BIS approval for Indian market compliance. These transformerless inverters offer superior efficiency, compact design, and comprehensive safety features for residential and small commercial applications.

Mr. Sukhminder Singh Brar

CEO

With an MBA and over 25 years of extensive experience in the power and energy sector, Mr. Brar has held senior leadership positions in reputed organizations including Okaya Power, Eastman Auto & Power Ltd., and Deepak International. His expertise spans business development, team leadership, market expansion, and corporate strategy, steering Rayax Energy's overall vision and growth strategy.
